Karen says, "I was practically born anal. I have been having anal fantasies ever since I was a little girl. Even so, it was a long time before I would let a guy fuck my ass. Of course I had been inserting objects into my butthole for ages. But they were small things, like fingers, beads on a string and baby dildos. The prospect of a huge cock cramming itself into that tiny hole was frightening!"

"I resisted every man who wanted to bugger me, making up for my cowardice with blow jobs. Then I met Jim. He alone had the patience and determination to successfully guide me through my first buttfuck. I'll never forget the first time he slid his hard meat up into my tight asshole. It was the dirtiest, most exciting sensation I had ever felt."

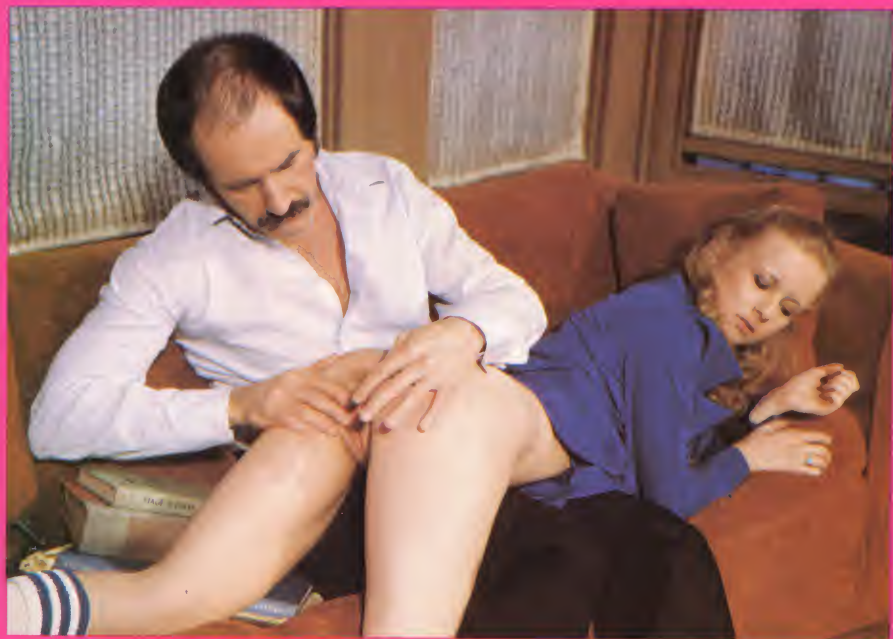

Angel tells us, "The advantage of using a dildo is that you can get two holes filled at once. If you're into your asshole, like me, that's pretty important. I love it when my boyfriend fingerfucks my butthole. But it's even better when he also shoves a big, buzzing vibrator up my cunt. As he works his finger slowly in and out of my anus, he rests the vibrating knob against my clit. My orgasm turns out to be just as intense as if he were screwing my ass."

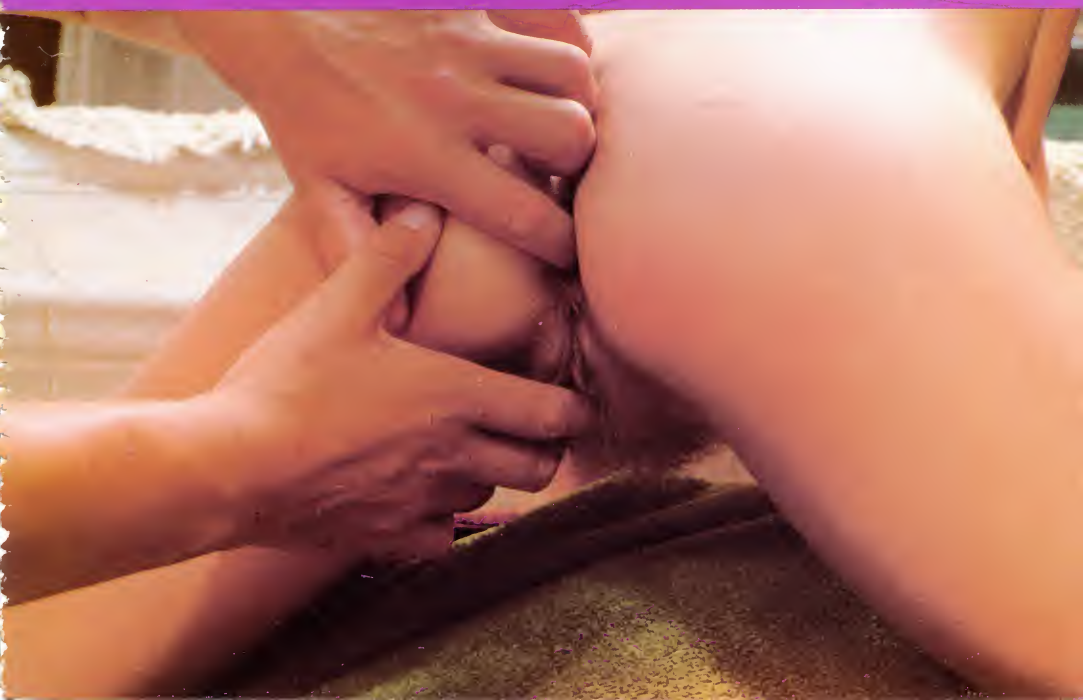

Maryanne asserts, "I love getting double-fucked. Having two pricks jammed up into my body at the same time is my favorite way of getting screwed. Of course this sort of thing doesn't happen to a girl every day. It's hard to find guys who are far out enough to go for a three-way scene. The cruise bars are the best places to connect. They are so full of horny men that it's easy to pick a pair. Glad to get a piece at all, they don't mind sharing. I always wonder if they can feel each other's dick when they're fucking me at the same time. The thought of their cocks making contact deep inside my holes excites me. After having my cunt and asshole spread and fucked again and again, I always beg my studs to cum in my face."

According to Camille, "The best thing about getting fucked up the ass is the bitchin' feel of a big, pulsing cock sliding up into the tightest hole in my body. My asshole is really snug. A guy usually has to grab me by both cheeks and yank it apart to widen the hole enough to take his meat. And lube is a must. I like the mentholated kind. It makes a dick feel like a cool, slippery tube of steel especially designed to ream my anus til I cream."

"Nothing arouses me more," says Elaine. "than getting a stiff prick shoved up my asshole at the same time a dildo is being stuffed into my cunt. Double penetration drives me wild. Sitting on a huge dick isn't as easy as it looks. But let a guy hold a vibrator against my clit for a few minutes first and I'll suck that hard piece of meat up my asshole like a fucking vacuum cleaner! I can squeeze like a bitch with my cornhole. No man has ever walked away from reaming my tight behind. They stagger! A jock once told me that fucking my ass was like sticking his dong in a hot, wet velvet mangle."

"To me, getting buggered is the ultimate act of submission," says Laura. "In no other way can a man so completely dominate a woman. Nothing humbles a girl so quickly as having a horny stud separate her ass cheeks and make her sit on his dick. I love the feeling of helplessness that comes with being impaled on a thick cock. Waves of excitement wash through my belly as that throbbing prick buries itself in my hot rectum up to the nuts. But being fucked up the ass from behind is even better. How strong, powerful and worthy of respect a man seems when he's cramming his pole up my anus from behind! How delightful it feels to have my naughty bottom whipped into shape by a stern, pile driving cock. No wonder I cum every time I'm buttfucked."

Sherry tells us, "I'm often shy about admitting to a man that I want him to put his prick up my asshole. But I somehow stammer out my desire every time. Only once did a guy refuse to cornhole me. I tore up his phone number that night. If a man can't enjoy shoving his cock into the tightest butthole in Hollywood, he's not the man for me. My ass cheeks are also sensitive. I dig having them pinched, squeezed and smacked while some hard fucker is stuffing my rectum with his dong. My clit starts to tingle the moment I feel a big dick snaking its way into my anal chute. Then a tease with my fingertips is all it takes to get me off. I always cum a second time if the guy squirts his spunk up my rump."

Seka says, "Sophia Solana is a prime example of a woman who really knows how to take a cock up the ass. She has exquisite control over her anus and can tense or relax it at will to accommodate the biggest or smallest dicks. Naturally, Sophia like the big ones best. Who doesn't? That dark, sexy chick is never so happy as when some hung stud is cramming his dong into her kinky behind. Sophia has no shame. She doesn't mind if another woman is present to witness the fucking of her hot, little cornhole. Especially if that other woman knows how to frig a pussy like I do."
